PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. The present invention claims do not reflow the resist pattern as taught in the prior art reference. There is no motivation to modify the prior art teachings to reduce the thermal shrinking step temperature to avoid resist reflow. In this event, the prior art rejection cannot be maintained. The claims are being passed to Issue.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
